Symbiotic effect by combining with highest rated immune optimizing Alovéa AE™ (Acemannan Extract)†

Wonderful natural cinnamon powder

Bioavailability (Absorption) Matters

To work, hemp phytocannabinoids have to get into your blood stream, and typical absorption rates for products are only about 5%. Our patented delivery technology uses cyclodextrins (CD's), cyclic oligosaccharides, that have a truncated cone shape with a hydrophilic outer wall. Because of this unique architecture, CD's are soluble in water and can simultaneously host lipophilic (oil) guests molecules. This allows for multiple higher times bioavailability of the hemp oil.†

ENTOURAGE EFFECT

The proven enhanced effect that the full range of cannabinoids and terpenes, that naturally occur in the hemp plant provide, over a CBD isolate product.†

Combining the immune modulating fractions of Acemannan with bioavailable hemp oil provides a synergistic impact that can dramatically enhance overall immune support.†

Each bottle of Entourage is blended with equal amounts of cannabinoid rich broad spectrum hemp oil and Alovéa AE™ rich aloe vera extract.

Every Alovéa product purchased helps to nourish children in need through our Buy 1, Nourish 1™ giving initiative.
